

An Easy-to-use Network Scan Station

New high-speed color network scanning from Avision add a new level of functionality to your workplace

- Scan-to-email, Scan-to-FTP, Scan-to-Flash, Scan-to-Folder, Scan-to-USB device, Scan-to-network printer
- Double sided color scanning
- All functions are controlled by a large color touch screen
- Support document up to Legal size
- 50-page auto document feeder

With @V6600, you can instantly scan single-sided or double-sided paper-based document and deliver the electronic image to various destinations including e-mail addresses, a network printer, ftp servers, web site, or someone else's computer on the network. IN addition, @V6600 allows you to scan and save the images to a USB flash drive, or the product's memory.

Featuring a large touch-screen display , the @V6600 provides convenience to customize your workflow so that your work is easy to be done. The @V6600 also enables operators to verify the image prior to attaching it to an e-mail or sending it to the office next door, or to an office around the world.

Scan-to-email

The scan-to-email feature lets you scan paper-based documents in full color and e-mail them in one of the PDF, JPEG, high compression PDF or TIFF file format directly from the @V6600. As a result, you can send the scanned document simultaneously to a lot of people. Plus, there are a total of 2,000 e-mail addresses which can be added into the machine.

Scan-to-filing

The scan-to-filing feature allows you to scan the documents and save them to a folder of a

personal computer or any server in the network through the FTPS, FTP, HTTP, HTTPS, or CIFS protocol since the @V6600 is built in with an ethernet port at the rear side.

Digital Copying

What is best, when the @V6600 is connected to a network laser printer, the whole set turns out to be a powerful digital copier. Through the easy-to-use operation panel, you can make copies just like you do on a regular copy machine.

Scan-to-Flash

Without complex setting, the NetDeliver @V6600 allows you to save your scanned image to a USB flash drive.

Multiple Pages Sending

With the Auto Document Feeder, the @V6600 allows a stack of 50-page document(s) to be continuously scanned and transmitted at one time in reliable quality to increase your efficiency.

Powerful, easy-to-use interface

Large 7-inch, bright color LCD shows all applications clearly. Simply make a few touches on the LCD screen, you can finish your job within seconds.

Avision NetDeliver @V6600

What we have bundled

The Avison @V6600 scan station comes with full version of @V6600 Vision Manager.

Avision @V6600 Vision Management Tool

The Avison Vision Management Tool allows administrator to easily configure each @V6600 on the network. What is more, a long list of e-mail addresses or filing destinations can also be imported or exported from one @V6600 to another @V6600 on the network. In addition, you can also update firmware and duplicate the administrator settings from one @V6600 to another @V6600.

Scan-to-email from the @V6600

Connected to an ethernet network and a SMTP server, the @V6600 allows you to digitize your document first and then send the scanned image as attachment via e-mail over the internet. With a touch of the e-mail key and the selection of your recipients' e-mail addresses, the document(s) is/are first scanned and converted into an image file, and then transmitted to remote recipients .

Scan-to-filing from the @V6600

With a touch of the folder key and the selection of your destination server, your document(s) is/are first digitized, and then stored to remote servers within minutes. The scan-to-file feature off-loads the mail server from handling large attachments.

Address Book/Profiles Manager

The product provides a convenient way to manage all the e-mail addresses and profiles (filing destinations). By simply typing the machine's IP address in the URL field of your browser, the product web page will be prompted. This web page allows you to create

up to 2000 e-mail addresses and 50 filing destinations to manage your document.
