- View images in iPad

The handheld scanner brings you a wireless and highly efficient life

This is a truly portable, cordless handheld scanner that allows you to capture important documents, books, letters, receipts, photos and more into a micro SD™ card. Powered by a rechargeable Li-Ion battery, the handheld scanner is cordless and easy to travel with. As you move the scanner over an area as large as 8.27"x 14", its sensitive color image sensor scans at high (600 dpi), or standard (300 dpi) resolution, saving images as JPEG/PDF files stored on an inserted micro SD™ card. The built-in display shows the selected resolution, file format, color or black and white mode, scan count, remaining battery life, and even the scanning speed. What is amazing, it only takes 2 seconds to scan a color A4 document. black-white mode).

To view or download the scanned image, you can either remove the micro SD™ card and connect it to a card reader, or connect the scanner to your computer via a supplied USB cable.

# MiWand Hand-held Scanner

## View images in iPad

Through the mini USB port, the scanned documents, can be easily transferred to iPad .

## Wireless design, scan images anywhere

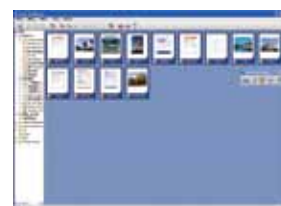

The brand new portable scanner weights only 223g and can be operated with a single hand. Powered by a rechargeable Li-Ion battery, you do not need to carry a heavy power adapter and hunt for an electric outlet anymore! Since

no computer is required to start a scan, you can carry it to anywhere, anytime! Whenever on the road, in a plane, a car, or a café, you can digitize almost everything right away! Whether standing or sitting, you can complete your scan by simply gliding it over a surface. Even the posters on the wall or a pretty carton can be easily digitized! In addition, an over-speed alert is provided to let you control your scanning speed to ensure the best image quality!

## NewSoft Presto! PageManager

-Super business software, management efficiency of enterprises information promoted once again!

PageManager main screen

Presto! PageManager lets users easily share network resources, as well as manage photos and files. It can assist users to transfer a pile of documents into ordered PDF files, and view, compile, search, deliver and copy them in various formats. With this software, users can directly print and fax documents through simple drag-and-drop, not only effectively assisting enterprises to manage business information, but also improving the efficiency of the working staff.
